

### **Health and Safety Protocols:**

While the 2022-23 school year remains in person, there still will be health and safety protocols in place. Since the COVID pandemic is still ongoing, TIDE wants our students at school to feel as safe as possible so that the focus is on growth and learning. We will follow guidance from the California Department of Education and [California Department of Public Health](#) in planning for the Fall of 2022.

- Masks are strongly recommended to be worn while on TIDE campus by all students and staff. Students may remove masks for eating and drinking in outside areas.
- Follow your teacher's classroom rules in regards to eating and drinking during class time.
- Students may use restrooms with a hall pass one at a time per classroom.
- Regular cleaning of commonly used areas and surfaces will continue to be done throughout the school day. This includes regular cleaning of bathrooms.
- Each classroom is equipped with two air purifiers.
- If a student is feeling ill, please stay home, and contact TIDE's school secretary Ms. Chavez (650.306.1755, [rchavez@seq.org](mailto:rchavez@seq.org)). For health inquiries, please contact TIDE's health aid, Jacqueline Farias ([jfarias@seq.org](mailto:jfarias@seq.org)) or TIDE's nurse, Heidi Flaig ([hflaig@seq.org](mailto:hflaig@seq.org)).
